# Wheelchair Accessible Semi-Recumbent Seated Stepper 7.5S: Commercial

---

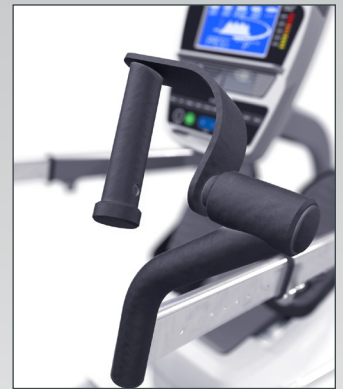

The Wheelchair Accessible Semi-Recumbent Seated Stepper 7.5S brings accessibility to wheelchair-bound patients while still providing a quality workout.

Ability for upper-only exercise allows for increased cardiovascular conditioning without lower body movement.

This machine is fully compliant with the Americans with Disabilities Act (ADA) to ensure accessibility for the widest range of disabilities.

*Direct wheelchair access*

*Rotate handles for comfortable hand position*

*Download displayed workout metrics*

*Seat rotates, adjusts horizontally and reclines*
