

LEG EXTENSION / LEG CURL

CSI-LELC

Reimagine your strength workout with the Spirit Fitness i-Strength CSI-LELC Leg Extension/Leg Curl. The advanced electronic resistance and intelligent software deliver a next-generation training experience. Plus, 4 dynamic training modes—Pure, Eccentric, Isokinetic, and Elastic—provide variety and drive faster results. A resistance range of 18 to 205 lbs supports effective training for users of all abilities.

The Leg Extension and Leg Curl machine delivers versatile lower-body training by targeting opposing muscle groups—the quadriceps and hamstrings. Exercises can be easily switched and adjusted from a seated position, providing maximum convenience. Its optimized axis of rotation ensures smooth, natural movement for both extensions and curls.

The padded, adjustable seat provides ergonomic support, lasting comfort, and easy maintenance. Constructed with a heavy-gauge steel frame and commercial-grade components, the machine is built for durability and reliable, long-term performance.
