

CTSBS900 SLAT BELT SLED TREADMILL

The CTSBS900 Slat Belt Sled Treadmill delivers unlimited training variety in a single, commercial-grade machine. A large multi-window LED console provides clear performance feedback, with direct-access speed, incline, and sled resistance keys and a dedicated mode-select button for fast, intuitive transitions. Its rugged construction and premium components ensure a smooth, consistent running experience—while giving facility owners confidence in long-term durability.

This versatile three-in-one system lets users train in treadmill, free run, or sled trainer mode to match any goal or training style. With speeds up to 15.6 mph and 20% incline, athletes of all levels can push their limits. For maximum intensity, sled trainer mode adds up to 15 levels of forward and reverse resistance. Integrated contact and wireless heart rate monitoring help users stay in their target zone, a built-in USB charging port, and over-the-air software updates ensure the software stays current and performing at its best.

FEATURES

- Treadmill, Free Run, and Sled Trainer mode for endless training options
- Large multi-window LED console with direct speed, incline, and sled resistance buttons
- Slim console design with an intuitive layout for easy navigation
- Powerful and durable 4.0HP AC drive system with up to 15.6 mph speed and 20% incline
