Designed for Presence

A bold, premium design that elevates your space and client experience.

Flexible Facility Fit

Larger footprint for enhanced comfort and a high-end facility showcase.

Premium Recovery Experience

More space. More comfort. More impact for your clients and your brand.

Diamond Configuration

CRYOPHIT-USA

Two single chambers powered from one engine for efficient throughput and flexible client flow.

-  Two single chambers
-  Single-engine efficiency
-  Flexible client flow
-  Higher-throughput configuration
-  Integrated music & lighting
-  HawkEye controls & diagnostics
-  Made in USA

Efficient Expansion

Grow your capacity without increasing your footprint.
One engine powers two high-performance chambers.

Throughput Advantage

Serve more clients in less time with a seamless flow and minimal wait.

Premium Client Experience

Consistent performance, immersive lighting, and integrated music create a next-level recovery experience.

TheraFloat

Warm Dry Float

Weightless relaxation. Full-body recovery. Completely dry.

Key Benefits of TheraFloat

Deep Relaxation

Warmth and gentle support help the body unwind into a calm, restorative state.

Weightless Comfort

A floating sensation reduces pressure on the body for a soothing, effortless experience.

Muscle & Joint Relief

Helps ease everyday tension, stiffness, and post-activity soreness.

Recovery Support

A restorative environment ideal after training, travel, or a physically demanding day.

Better Sleep Support

Deep relaxation may help the body and mind settle more easily into rest.

Mental Clarity

Quiet, distraction-free time can help you reset, recharge, and refocus.

Dry & Convenient

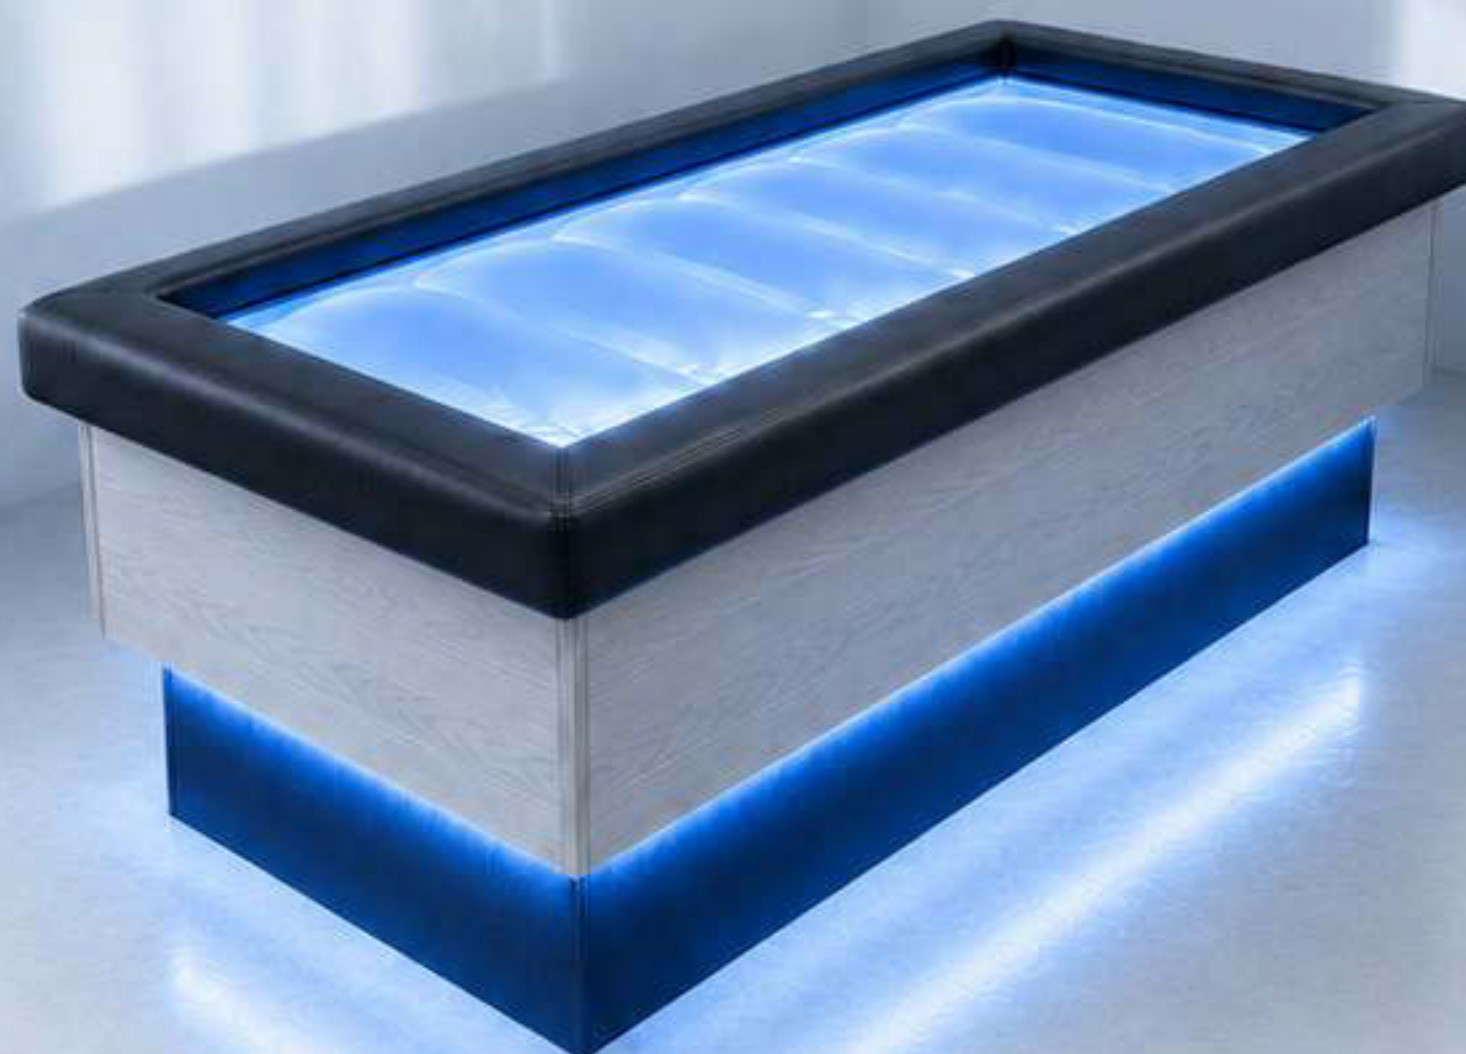

Enjoy the comfort of warm-water flotation while staying fully clothed and completely dry.

TheraFloat Cold Dry Float

CRYOPHIT-USA

Invigorating cold therapy. Full-body support. Completely dry.

Key Benefits of TheraFloat

Cold Recovery

Cold exposure may help reduce the feeling of inflammation and calm post-workout soreness.

Muscle Relief

May help ease muscle fatigue and tension so you can move, perform, and recover.

Mental Reset

Cold exposure can feel energizing and help you refocus, reset, and recharge mentally.

Full-Body Support

The floating surface gently supports the body, creating a comfortable and balanced recovery experience.

Invigorating Experience

A crisp, refreshing sensation creates an uplifting wellness experience that feels energizing and restorative.

Dry & Convenient

Enjoy the benefits of cold therapy while staying fully clothed. Simple, clean, and completely dry.

Recovery Routine Fit

Ideal for recovery centers, gyms, and wellness spaces looking for a distinctive, low-friction recovery offering.
